

## Tree Legacy Program

The Tree Legacy Program provides a way for you to invest in the future of Monroe

by planting trees. Trees specifically designated (species) can be purchased at area nurseries and the City of Monroe will plant your donated tree. Donated trees will be planted on public lands in our community. Individual tree memorials can be facilitated. Details are kept in a beautiful book, noting the purchaser of the tree, date of planting, its type and location and its designee and are available for viewing in the Office of Beautification Coordinator. All the people involved are notified when the tree has been planted. We will plant trees that are suitable for our region and the specific location.

We have a purpose in structuring the Tree Legacy Program around definite projects. By concentrating our efforts on several specific sites each year, we are better able to make a significant visual impact on the community, while streamlining the maintenance responsibilities.

Trees make our homes more valuable and our cities more livable. Cities beautifully planted with trees are more likely to attract new businesses and are more appealing to tourists.

*Sponsored by the City of Monroe*

Plant Trees in Celebration

Plant Trees in Memory

### Trees in Celebration • Trees in Memory

**Honor your friends and loved ones with the gift of trees.**

Over the course of 50 years, a single tree can generate \$31,250 of oxygen, provide \$62,000 worth of air pollution control, recycle \$37,500 worth of water, and control \$31,500 worth of soil erosion.

## Plant Trees in Celebration

Plant *Trees in Celebration* of birthdays, anniversaries, new births, or any special occasion. By planting *Trees in Celebration*, you can honor your loved ones while caring about the environment and planting a tree in one of our parks or streets.

## Plant Trees in Memory

Our *Trees in Memory* and *Trees in Celebration* programs plant trees. When you plant a tree in memory of a loved one, or to mark a special occasion, you contribute to a healthier environment and provide for future generations.

As the trees grow and prosper, so does the meaning of your gift.

A vibrant, beautiful tree benefits everyone in this and future generations; and, is perhaps the most fitting memorial of all. Planting a tree is an act of direct benefit to all.

It can inspire energy, faith, devotion, and courage and carry forward the name of those memorialized in a living, vital way that grows grander with the years.

Your trees will be silent sentinels, honorable monuments, and for decades to come, active participants in nature's plan.
